“The more that you read, the more things you will know. The more that you learn, the more places you'll go” — Dr. Seuss

It gives me immense pleasure to bring out next issue of our journal with continued deliberations of excellent academic and research articles. The readers would be happy to go through a wide range of topics covering various aspects.

This issue covers all aspects of diagnostic pathology like histopathology, cytopathology, haematology and immunopathology. Articles give an insight into various benign and malignant lesions as well as rare presentation of non-neoplastic diseases.

Reading through these articles will definitely benefit researchers of all cadres and help upgrade current knowledge and practices. Preparation of manuscripts, editing, submission, and the whole publication process takes a lot of team effort and on behalf of our editorial team, I take this opportunity to congratulate the authors of this issue and all our dear readers for their constant support.

I also convey my regards to our publishers for doing a fantastic work.

Dr. Nitesh Mohan

MBBS, MD
