*“Change is the end result of All true Learning” — Leo Buscaglia*

In this past year, we have seen lot of changes in our lives. Along with physical health, our mental health has also suffered huge impact, but life finds its way and we move ahead to evolve, upgrade, and be better than what we were yesterday.

With these words I introduce you to next issue of our journal which contains research from finest of authors from around the country. I feel this issue to be a good learning platform for all our readers.

Research articles on epithelioid sarcoma, tubercular lymphadenopathy, small round cell tumors and bone marrow iron stores give loads of updated information to our readers which will help us all in daily practice and learning. Various case reports detailed in this issue are interesting and worth reading. I must congratulate all our authors for their contribution to the current issue.

I convey my regards to our publishers for doing a fantastic work and hope that our readers continue to give us much needed support. God bless all.

**Dr. Nitesh Mohan**

MBBS, MD

**Editor-in-Chief**
